Completing the Location of Research screen

You will need to complete the Location of Research screen if you indicate in the Research Checklist that your research project will include:

- Locations other than/in addition to University of Melbourne
- Approvals (non-ethics) needed from external organisations
- Already has or requires other ethics approval
- Involves personal information obtained from Govt dept or NGO
- Data collected previously for another purpose
- Involves health, personal or sensitive information
- Multiple ethical review of research
- Likely participants of social groups with special needs
- Likely ATSI participants
- Likely participants requiring consent of leaders/elders

Note: where the research is being undertaken at locations additional to or other than the University of Melbourne additional approvals and/or ethics clearances may be required.

Specify the Location of the Research

Where the research will be carried out

1 Tick the checkbox/s for the location/s where your research is to be undertaken.

Important: where research is undertaken overseas, you will need to contact the Risk Management Office to ensure compliance with University procedures.

Category of external location

2 Tick the checkbox/s for the category of location/s at which your research is to be undertaken.

Note: if you select Other you will need to complete additional information in the field that displays below.

If you have selected Other category go to task #3. Otherwise go to task #4.

3 Specify the details of the other external location.

4 Click on the Next button to proceed to the next screen.
