Completing the Drug Trials screen
If you indicate your research project involves Participation in a drug trial on the Research Checklist you will need to complete the Drug Trials screen.

Specify the details of the drug trials
Type of Trial
1 Select the appropriate type of trial from the drop-down list.
   Note: if you select Other you will need to complete additional information that displays below.
If you have selected Other go to task #2. Otherwise go to task #3.
2 Enter the details of the other drug trial type.

Phase (if applicable)
3 Select the appropriate phase of drug trial from the drop-down list.
   Note: if you select Other you will need to complete additional information in the field that displays below.
If you have selected Other go to task #4. Otherwise go to task #5.
4 Enter the details of the other drug trial phase.
5 Click on the Next button to proceed to the next screen.
